Subject: Communication of Water Quality Test Results for Sample No. 12/2025

Dear Sir/Madam,

This certifies that the water sample collected from the **Filter Water** source at the above-mentioned premises has been tested for bacteriological safety.

Please find below the results of the water quality analysis conducted on the sample collected from your premises.

Sr. No				Result of Observation			Conclusion/Opinion
				Result (per 100 ml) Microorganism			
	Gram Panchayat Name	Village/ Source of Wate	Source Type	Coliform Bacteria	Thermotolerant	E. Coli	
1)	JAWHAR	Dnyanganga High School (E.M) Jawhar	Filter Water	0	0	0	FIT (Safe for Consumption)

Opinion -

The sample, identified as **Filter Water** from the school, was collected on 10/07/2025 and tested on 10/07/2025.

The water quality is found to be satisfactory and is declared **FIT for drinking purposes**. The unsafe water should be treated by suitable amount of chlorin and Re-examination then should be used for drinking. Please retain this report for your records. We advise continuous monitoring of your water filtration system to maintain this quality.
